A. AREAS OF EXPERTISE:

Dr. Dydek is an expert in evaluating the potential human health effects associated with exposure to toxic chemicals such as asbestos, benzene, carbon monoxide, silica, petroleum products, metals, toxic gases, pesticides, oil and gas fracking emissions, solvents, and many other chemicals in the environment and in occupational settings. He also evaluates exposures to microbial agents such as mold and bacteria.

Dr. Dydek has training and experience in preparing Baseline Risk Assessments, establishing clean-up guidelines or standards, evaluating the health effects of tobacco smoking, conducting state of the art toxicological reviews for alternative fuels registrations and other projects, performing product safety evaluations, and doing chemical exposure assessments.

Dr. Dydek functions as an expert witness in administrative hearings before environmental agencies, toxic tort cases, criminal proceedings, and Worker's Compensation matters. He is familiar with the standards that have been established concerning expert witness testimony. He has worked on more than 250 cases, given 50 depositions, and testified at trial 10 times over the past 20 years.

B. EDUCATION:

Dr. Dydek has a Bachelor's degree in Mechanical Engineering and Master's degree in Environmental Science and Engineering from Rice University, Houston, Texas; a Ph.D. from University of North Carolina School of Public Health, Chapel Hill, N.C. in Environmental Science and Engineering. He has also done a Post-doctoral research fellowship in toxicology in the College of Pharmacy, University of Texas at Austin.

C. WORK EXPERIENCE:

1994 to present: President, Principal Toxicologist and Engineer, Dydek Toxicology Consulting, Austin, Texas.
1991-1994: Senior Toxicologist, Jones and Neuse, Inc., Austin, Texas.
1984-1991: Senior Staff Toxicologist, Texas Air Control Board, Austin, Texas.
1982-1983: Lecturer in the Environmental Studies Program, Saint Edward's University, Austin, Texas.
1976-1982: Research Scientist, U.S. Environmental Protection Agency, Research Triangle Park, N.C.
1973-1976: Environmental Engineer, U.S. Environmental Protection Agency, Dallas, Texas.
1971-1973: Environmental Engineer, U.S. Fish and Wildlife Service, Albuquerque, New Mexico.

D. CERTIFICATIONS, LICENSES, AND AFFILIATIONS:

Dr. Dydek is a Board-Certified Toxicologist (Diplomate of the American Board of Toxicology) and a Licensed Professional Engineer (Texas License #71831). He was an Adjunct Professor of Environmental Health at the University of Texas School of Public Health at San Antonio from 1987 to 2000. He is a member of the Society of Toxicology, the American Board of Toxicology, the American College of Toxicology, the Roundtable of Toxicology Consultants, the American Conference of Governmental Industrial Hygienists, and the Air and Waste Management Association. He has also been a technical advisor to the TV shows "CSI" and "Bones".

E. PUBLICATIONS, TECHNICAL PRESENTATIONS, CONFERENCES ATTENDED:

Dr. Dydek has published technical articles, book reviews, and a book chapter in the areas of environmental engineering and in environmental toxicology. In addition to attending meetings of various professional societies, he has attended more than 130 technical conferences, seminars, and continuing education courses and has given presentations at about 30 of these meetings.

Dr. Dydek's full curriculum vitae and a list of professional references are available upon request.
